

Lowell Community Wellness

Inspiring and educating the Greater Lowell Community to attain a healthier lifestyle

Pink Arrow Project Educational Initiatives Grants

The Mission of this grant is to provide funding for innovative learning and enhancing programs for students in the Lowell Area Schools district, with an emphasis on the importance of cancer prevention through maintaining health and wellness and the study of science.

This opportunity is a result of the overwhelming success of the Pink Arrow Project which exceeded the expectations of all who were involved. The Pink Arrow Project has empowered Lowell Community Wellness to use a portion of the proceeds to inspire and educate students to study science by awarding mini-grants to promote the mission stated above.

The requests will be reviewed three times per year. Grants have a limit of \$500 per school applicant per project. Please submit applications by October 31, March 31, and July 30. A 45- to 60-day time frame is required to process all applications and will guarantee a review by the Grant Committee.

We would like to fund grants that provide equipment or experiences with lasting educational impact. Grants may be used to purchase equipment, curriculum, trips or experiences with a lasting educational impact.

Whenever possible, please consider local vendors first to purchase supplies.

To be considered for grant funding, please complete the following application. Grants cannot be awarded for more than the budgeted amount and cannot be modified following final recommendation. A carefully itemized project budget must be returned with the completed application. Send the completed application to:

Lowell Community Wellness
P.O. Box 246
Lowell, MI 49331

Within two months of project or event completion, a written reports needs to be submitted to Lowell Community Wellness.

1. Clearly define the project and how it will educate students about cancer prevention, cure and/or encourage them to study science.

2. Describe how the project is innovative or unique or how it enhances the curriculum.

3. Describe the potential impact of the project, both in terms of the number of students served and the impact on learning.

4. Will the project have a lasting impact beyond just this school year? If so How?

5. How will the effectiveness of the project be measured or demonstrated?

6. Attach a detailed itemized budget for the project. Grants cannot be awarded for more than the budgeted amount and cannot be modified following final recommendation.

* Within two months of project or event completion, a written report is required to be submitted to Lowell Community Wellness at the same address as for Grant Applications (above).

4. How was participation encouraged?

5. What is the lasting impact of this program? Describe in terms of acquired student knowledge as well as how it will inspire students beyond this school year.

6. Describe the results of your measured effectiveness. Include ways that this program could be improved, changes you would make for future programs or new and innovative ideas that will be added to this program.
